Description	Value
FISCAL YEARS	2001
OUTPUT LEVELS	DETAIL
TYPE COURSE	A1
UIC'S	30565

Report Explanatory Notes Page

This report presents data that is aggregated and is a snapshot in time. Aggregated means that it is summed up to a particular level and certain calculations have been performed at that level. Also, this data is a snapshot of the "live" data on the database as of a certain date. On the report, the date of aggregation is labeled AS OF. This is the date through which the data was last aggregated. Even though the process to aggregate the data may have been done two weeks later, the AS OF date represents the cut-off date for the data that was to be included in that aggregation.

Abbreviations used in this report:

CM = Calculation Method used in determining Planning numbers.

P = Plan
C = Class
Q = Quota

GR = Group Reporting indicator

If there is a "G" in this column, then that particular month's information was reported via Group Reporting. If it is blank then it was reported via STASS (SSN level).

UTIL% = Utilization Percent
ACAD = Academic
NACAD = Non-Academic
DSNRL = Disenroll
PCT = Total Non-Grads Percentage

Additional Information:

The value "NA" (for Not Applicable) will be supplied for the PLAN UTIL% and DYNQ UTIL% columns when either the PLAN INPUT or DYNQ INPUT are zero, respectively. The UTIL% columns will be zero when the ACTUAL INPUT column is zero.

ACTUAL INPUT	/	PLAN or DYNQ INPUT	=	PLAN or DYNQ UTIL%
20	/	0	=	NA
0	/	20	=	0

Total Non-Grads Percentage (PCT) is calculated by dividing the Total Non-Grads by the Student Flow.

Total Non-Grads	=	ACAD + NACAD + DSNRL
Student Flow	=	(ACT INPUT + ACT GRAD + Total Non-Grads) / 2
Total Non-Grads Percentage	=	(Total Non-Grads / Student Flow) * 100

Total Non-Grads Percentage is rounded to a whole number.

"NA" will appear in the Total Non-Grads Percentage column (PCT) if the Student Flow equals zero.

If PCT is greater than 999 then *** will be shown in the column.
